Among 5000 suppliers from all around the world, ebm-papst has been awarded 1st place as "Best Supplier of the Year 2009" by the company Alfa Laval.

28.07.2010 - Page 1 of 1

Alfa Laval is a global market leader in the core technologies of heat transmission, separation and fluid handling. These sectors form the basis for industrial processes.

Per Føgt Norup, Alfa Laval's Global Purchasing Manager for Fluid and Electrical Components and Fittings presented the certificate at a ceremony held during a visit to ebm-papst's Italian subsidiary at Mozzate.

Norup praised the very good quality/price relationship of ebm-papst's products, the competent technical support and the excellent service.

"We are very proud to receive this award," explains Alessandro Masotto, Managing Director of the Italian ebm-papst location. "We shall continue to put our very best efforts into this outstanding partnership."

For many years, ebm-papst has been supplying reliable and efficient axial fans of different sizes for use in the field of air-heat transmission, which includes air-cooled condensers, dry coolers and air coolers. These are used in commercial and industrial refrigeration and air conditioning applications.

Among the guests were Luciano Arimini, Purchasing Manager, and Michele Monteleone, Production Manager at Alfa Laval in Alonte.
