

## ebm-papst is an established member of Singapore Green Building Council

Singapore, 07 March 2025

ebm-papst SEA Pte. Ltd. is now an Established Member of the Singapore Green Building Council (SGBC), the only non-profit organisation in Singapore with a concerted private-public sector partnership to achieve a greener, healthier and more sustainable built-environment.

SGBC enables sustainability across the building and construction value chain, championing capability development and innovative solutions that support industry transformation through its Membership, Outreach and Certification programmes. The repository of proven green building solutions helps to enable green procurement in the industry, profiling leading and innovative solutions that go towards building a greener, healthier built environment. SGBC is also an Established Member of the World Green Building Council, a network of nearly 70 national green building councils in operation around the world.

ebm-papst SEA Pte. Ltd. joins more than 440 organisations from across the building and construction value chain as a Member of the SGBC, including property developers, real estate owners, architects, building consultants, engineers, solutions providers, government agencies and the academia. SGBC Members regularly come together to forge meaningful industry and community connections, catalysed by SGBC's unique position in the green building value chain and access to key global resources to further any sustainability conversation.

## Engineering a better life

ebm-papst's purpose, "Engineering a better life," illustrates the importance we place on our goal of helping to make the future better. With our increasingly efficient and intelligent solutions, we are helping to make the world a more sustainable place. However, team spirit and joint action also play a key role in this – both within the company and with everyone involved in the value chain collaboratively and constructively.

Here at ebm-papst, this knowledge spurs us on every day as we strive to find new and intelligent solutions in networks and partnerships with our customers, suppliers, and service providers. Our aim is always to make our processes and products even more sustainable and efficient.

Read more on our sustainable efforts [here](#).

### **About ebm-papst**

The ebm-papst Group, a family-run company headquartered in Mulfingen, Germany, is the world's leading manufacturer of fans and motors. Since it was founded in 1963, the technological leader has set international industry standards with its core competencies in motor technology, electronics, digitalization, and aerodynamics.

ebm-papst offers sustainable, intelligent, and tailor-made solutions for virtually every requirement in ventilation and heating technology. ebm-papst sets the benchmark in almost all sectors, such as ventilation, air conditioning and refrigeration technology, heating technology, information technology, mechanical engineering, intralogistics, and medical technology. In the 2023/24 financial year, the Group generated a turnover of EUR 2.408 billion. It employs just nearly 14,000 people at 30 production sites including in Germany, China, and the US, as well as 50 sales offices worldwide.
