

ebm-papst Virtual Events: Fresh World + Drive World Experts, Conversations, and Innovation

After the successful premiere of the first ebm-papst Fresh World for refrigeration and ventilation technology in November 2020, the virtual event will be repeated in June – this time with a second event for industrial drive technology. Fresh World will be held on June 16, 2021 and Drive World will be held one day later on June 17, 2021.

The mix at both events will consist of keynotes, the presentation of new products, compact technical presentations on various topics, and the opportunity to meet ebm-papst experts and network within the industry. The networking lounge will be available to participants for this purpose during and after the end of the program.

A highlight of Fresh World will be the presentation of the new RadiPac centrifugal fan for HVAC applications. Also on show will be the AxiEco axial fan for refrigeration applications and the DiaForce diagonal compact fan for electronics cooling. In addition, there will be a presentation highlighting the topic of active PFCs, and a discussion round on air handling units (AHUs) is also planned.

Fresh World will be held in English and German, but at different times to allow other time zones to participate. To register or find out more information about the program, go to www.ebmpapst.com/registration. Participation is free of charge.

Fresh World for Refrigeration and Ventilation Technology on June 16, 2021

- 9 a.m. to 12 noon German
- 8.30 a.m. to 11 a.m. English
- 2 p.m. to 5.15 p.m. English

Drive World will feature the world premiere of the ebm-papst ArgoDrive, a driving/steering system for omnidirectional automated guided vehicles. Other topics include: Drive solutions for SIMATIC Micro-Drive drive controllers and the presentation of the modular drive system on BLDC servo motors from ebm-papst.

Drive World will also be held at different times in German and English. To register or find out more information about the program, go to www.ebmpapst.com/registration. Participation is free of charge.

Drive World for Drive Technology on June 17, 2021

- 10 a.m. to 12 noon German
- 2.30 p.m. to 4.30 p.m. English

About ebm-papst

The ebm-papst Group, a family-owned company in Mulfingen, Germany, is the world market leader in fans and drives. Founded in 1963, the technology leader with its core competences motor technology, electronics and aerodynamics, has set international market

ebm-papst Virtual Events: Fresh World + Drive World Experts, Conversations, and Innovation

standards ever since. With over 20,000 products, ebm-papst offers customized, energy-efficient and intelligent solutions for virtually any ventilation and drive technology requirements.

In fiscal year 2019/20, the hidden champion achieved a turnover of 2.188 billion euros and employed almost 15,000 people in 29 production sites (e.g. in Germany, China and the US) as well as in 48 sales locations. With their fan and drive solutions, ebm-papst defines and sets the benchmark in practically all industries, such as ventilation, air-conditioning and refrigeration, heating, automotive, IT, mechanical engineering, catering and household appliances, intralogistics and medical engineering.
