ebm-papst Landshut donates 3,000 EUR to the club "Freunde und Förderer des Kinderkrankenhauses St. Marien in Landshut e.V." (Friends and Sponsors of Children's Hospital "St. Marien" in Landshut). With this donation, the motor and fan manufacturer is supporting the purchase of a vibration plate, which is one-of-a-kind in Lower Bavaria for treating children with rheumatism.

"Social responsibility for the Landshut region is an important component of the values that guide our corporate management - and that is the reason why we are donating again this year to Children's Hospital "St. Marien"," said Managing Director Stefan Brandl, explaining the decision to support the club again this year. When talking with Armin Ziegler, the chairman of the club, Brandl was fascinated by the club's previous achievements, saying: "I am very impressed by the club's commitment and glad that we can make a contribution with our donation."

"I think it is good that even in difficult economic times, companies like ebm-papst Landshut still get involved," commented Ziegler, who was able to receive the donation from Brandl.

About ebm-papst Landshut

ebm-papst Landshut is a specialist and market leader in the development and production of fans, small motors and pumps for energy-efficient heating and household appliance technology. Optimised solutions are created in collaboration with customers, whereby quality, cost-effectiveness, safety and environmental protection are given equal attention. In the last fiscal year 08/09, the company, which belongs to the ebm-papst group, achieved turnover of 195 million EUR and currently employs about 1,000 people. Products by ebm-papst Landshut are groundbreaking solutions with top reliability, for example as fans in condensing boilers, hot-air fans for ovens and condensate pumps for clothes dryers.

About the ebm-papst group

The ebm-papst Group is the world's leading manufacturer of fans and motors and is a pioneer and a pacesetter for ultra-efficient EC technology. In the fiscal year 08/09, the company achieved a turnover of 1.056 billion EUR. ebm-papst employs nearly 9,500 employees at 17 production sites (including those in Germany, China and the USA) and 57 sales offices world-wide. Products of the global market leader are represented in many industries, including ventilation, air-conditioning and refrigeration technology, household appliances, heating engineering, in IT/telecommunications applications, as well as those in automotive and commercial vehicle engineering.
